A Guide To Pattern Grading

Pattern grading is an easy way to replicate a pattern to scale, saving you from having to draft the whole thing. It can be your go-to if you need to size an entire pattern up a smidge. (Though you shouldn't try to go more than two sizes up or down, as that would disrupt the balance of the pattern.)

Easy Guide to Pattern Grading on Blueprint!

There are three key things you need to know for grading a pattern: Gauge: Gauge is often overlooked, but it is SO important for pattern grading. You're going to need to know how many

Make Patterns Fit your body. A Simple guide to Grade ...

Grading a pattern and altering a pattern are two very different things. When you grade a pattern, you are creating the same style in another size - EVERY measurement point is changed, following a strict formula, to maintain the same fit and proportion in each new size. When you alter a pattern, you change only some parts of the pattern.

end up larger (or sometimes smaller) than you wish. Pay attention to the finished garment sizes on the envelope.

{tutorial} Pattern Grading: Method One - The Easy Way

Pattern grading, most simply put, is the proportional increase, or decrease in the size of a pattern. The purpose of grading is to fit a range of body types and sizes from one base pattern style.

Each pattern piece is methodically increased or decreased to create a new size, while keeping the same intended fit, shaping, and proportion of the original base pattern. Pattern grading should not be confused with pattern alterations.
