Apache Tomcat also provides by default a HTTP connector on port 8080, i.e., Tomcat can also be used as HTTP server. But the performance of Tomcat is not as good as the performance of a designated web server, like the Apache HTTP server.

Apache Tomcat - Tutorial - vogella

The next step is optional. Tomcat and Lucee are listening on port 8080 to access the administrator interface. Other web servers might use this port already or if you suffer from a security paranoia like i do, we want to have this port on a really weird number.. Note: The Lucee'ians are used to have port 8888 to access the administrator interface. Find the setting:
