Category: onchocerciasis Closer than Ever Some of the world's most accomplished disease experts—including several of my colleagues in CDC's Division of Parasitic Diseases and Malaria (DPDM)—are gathering in Geneva this week at the NTD Summit 2017.

onchocerciasis | | Blogs | CDC

Onchocerciasis is a rare tropical parasitic disease transmitted by a black fly. Infection by the parasite can cause eye and skin problems. In humans, the parasitic worms live under the skin (subcutaneous nodules) and produce larvae (microfilariae). The larvae are found throughout the body, but especially in the skin and eyes. R

Onchocerciasis | Genetic and Rare Diseases Information ...

Onchocerciasis, also known as river blindness, is a disease caused by infection with the parasitic worm Onchocerca volvulus. Symptoms include severe itching, bumps under the skin, and blindness. It is the second-most common cause of blindness due to infection, after trachoma. The parasite worm is spread by the bites of a black fly of the Simulium type. Usually, many bites are required before infection occurs. These flies live near rivers, hence the common name of the disease. Once inside a perso

Onchocerciasis - Wikipedia

Key facts Onchocerciasis, commonly known as "river blindness", is caused by the parasitic worm Onchocerca volvulus. It is transmitted to humans through exposure to repeated bites of infected blackflies of the genus Simulium Symptoms include severe itching, disfiguring skin conditions, and visual ...

Onchocerciasis - World Health Organization

Onchocerciasis Elimination Programme for the Americas (OEPA) OEPA is a regional partnership which was launched in 1992. Its goal (under the Pan American Health Organization [PAHO] Directing Council resolutions CD48.R12 and CD49.R19) is to interrupt onchocerciasis transmission in the Region of the Americas by 2015.

WHO | Prevention, control and elimination of onchocerciasis

Onchocerciasis is a parasitic disease caused by parasites (nematode) named Onchocerca volvulus. It is transmitted to humans by the bite (blood meal) of the female blackfly (Simulium). The disease is also termed river blindness because the vector, the blackfly, is usually found breeding close to rapidly flowing streams and rivers, and because the most devastating manifestation of the infection is blindness.

Onchocerciasis (River Blindness) Symptoms and Treatment

Onchocerciasis, also known as river blindness, is a disease that affects the skin and eyes. It's caused by the worm Onchocerca volvulus. Onchocerca volvulus is a parasite. It's spread to humans and...

Onchocerciasis (River Blindness): Symptoms, Causes, and More

Onchocerciasis is the world's second leading infectious cause of blindness. In the 1970s, blindness affected up to 50% of adults in some regions in West Africa, and people abandoned the fertile river valleys in fear of contracting the disease. Poverty and famine increased.

Onchocerciasis: Definition, transmission, symptoms, and ...

Onchocerciasis is the second-leading infectious cause of blindness worldwide: approximately 500,000 people are blind due to onchocerciasis [4]. The epidemiologic patterns of infection differ between savanna and forest regions.

UpToDate

Between 1974 and 2002, onchocerciasis was brought under control in West Africa through the work of the Onchocerciasis Control Programme (OCP), using mainly the spray of insecticides against black-fly larvae (vector control) by helicopters and airplanes. This was supplemented by large-scale distribution of ivermectin since 1989.

WHO | Epidemiology

Onchocerciasis is a river blindness disease caused by the filarial nematode. Published in: Health & Medicine. 5 Comments. 38 Likes. Statistics. Notes.

Onchocerciasis - SlideShare

Onchocerciasis, otherwise known as "African River Blindness," is a filarial infection caused by the nematode Onchocerca volvulus that can lead to visual morbidity via multiple mechanisms including chorioretinitis, uveitis, and sclerosing keratitis. It manifests systemically but is best known for its cutaneous and ocular pathologies.
