The Demographic Cliff: How to Survive and Prosper During the Great Deflation Ahead Paperback – August 25, 2015 by Harry S. Dent Jr. (Author) 4.1 out of 5 stars 430 ratings See all formats and editions

The Demographic Cliff: How to Survive and Prosper During ...

Colleges and universities had been bracing for a much-feared “demographic cliff”—a steep drop-off in potential first-time full-time freshmen projected to arrive in 2025-2026. But last year there were signals the cliff had started to arrive early: even elite institutions ended up admitting more students from applicant pools and waitlists just to meet tuition revenue goals.

The demographic cliff is already here—and it's about to ...

His second book, The Demographic Cliff, was disappointing. According to his own analysis, the economic impact of so-called cliff in the USA will probably not be significant....although it probably will have great impact elsewhere.

Demographic Cliff, The: Harry S. Dent, Jr., Harry S. Dent ...

The Demographic Cliff by Harry Dent Jr. seeks to explain how the world economies will be impacted by the changing of demographics from Baby Boomers and the resulting Echo boom and what can be done to combat the supposed round of deflation that will occur between 2014-2019 based upon demographic trends.

The Demographic Cliff: How to Survive and Prosper During ...

About The Demographic Cliff. Bestselling author and financial guru Harry Dent shows why we're facing a “great deflation” after five years of desperate stimulus — and what to do about it now. Throughout his long career as an economic forecaster, Harry Dent has relied on a not-so-secret weapon: demographics.

The Demographic Cliff by Harry S. Dent Jr.: 9781591847885 ...

Distinct from Harry Dent's "demographic cliff," which predicted economic downturn between 2014 and 2019 as boomers retire (which obviously did not happen), the college demographic cliff (written about extensively by scholars such as Clayton Christensen of Harvard Business School and Nathan D. Grawe of Carleton College) predicts that institutions of higher education will experience severe problems attracting students over the next ten years as the population of college-age potential enrollees ...

How will the upcoming “Demographic Cliff” Impact ...

The Demographic Cliff. The New York Times has finally discovered that fiscal cliffs aren't the only thing that menace the modern nation-state. There's a demographic cliff, too. A couple weeks ...

The Demographic Cliff - Washington Examiner

A key driver of that demographic cliff is a drop in the national birth rate since the Great Recession in 2008. According to the Centers for Disease Control and Prevention, the United States registered nearly 3.8 million births in 2018, down 2% from the prior year. It was the fourth consecutive year of decline following an uptick in 2014.

College Enrollment Nears Demographic Cliff - Business ...

It was published early in 2018, but I only found out about it a couple of weeks ago; the demographic trends haven't shifted much since 2018 and I think Grawe's projections deserve more ...

College Enrollment Bust Is Headed This Way by 2026 - Bloomberg

At a recent meeting of the CUPA-HR board of directors, the enrollment cliff was the main topic of discussion. These higher ed HR leaders from different institution types across the country served as a think tank of sorts, sharing their thoughts on what the higher ed landscape might look like in five to eight years, sharing their institutions ...

The Looming Higher Ed Enrollment Cliff | CUPA-HR

Northeastern schools, especially those who cater to students who live nearby, are feeling more pain because of demographic shifts that began well before the Great Recession hit. Americans are continuing to move away from the Northeast to the South, to places like Texas. In addition, birthrates are lower in the Northeast where there is a smaller ...

College enrollment decline of more than 15% predicted ...

For instance, Dent can tell a client exactly when people will spend the most on potato chips. And he can explain why our economy has risen and fallen with the peak spending of generations, and why we now face a growing demographic cliff with the accelerating retirement of the Baby Boomers around the world.
