In Margaret Peterson Haddix's novel, Takeoffs and Landings, a family has been gently pushed apart ever since the father died even though they still live under the same roof. Lori, to all outside observers, is little miss perfect, but underneath she seethes. Chuck bears a guilt and outsidersness that is just heartbreaking.

Takeoffs and Landings by Margaret Peterson Haddix

"The SkyRaider vertical takeoff and landing small unmanned aircraft system [sUAS] was procured to fill a capability gap," the Marine Corps said in a statement, noting that the need for SkyRaider came out of the Small Unit Remote Scouting System operational requirements document and a series of Urgent Universal Needs Statements.

Amazon.com: takeoffs landings

A minimum interval takeoff (MITO) is a technique of the United States Air Force for scrambling all available bomber and tanker aircraft at twelve- and fifteen-second intervals, respectively. Before takeoff, the aircraft perform an elephant walk to the runway. It is designed to maximize the number of aircraft launched in the least amount of time possible before the base suffers a nuclear strike ...

Minimum Interval takeoff - Wikipedia

short takeoff and landing: (DOD / NATO) The ability of an aircraft to clear a 50-foot (15 meters) obstacle within 1,500 feet (450 meters) of commencing takeoff or in landing, to stop within 1,500 feet (450 meters) after passing over a 50-foot (15 meters) obstacle. Also called STOL.

STOL - Wikipedia

Takeoffs and landings account for 66 percent of fatal air accidents, but current air traffic control systems are designed mainly to monitor aircraft that are in mid-flight. To help fill this gap,...
