In The People Factor, Moody insists that the process of developing strong and meaningful relationships begins first with an individual's desire to be consistently authentic, vulnerable and self-less. At the same time, however, he calls for readers to have wisdom in evaluating the character, motives and values of those in their personal and professional circles.

Events — The People's Building

The history of The People's Building's is as dynamic as Aurora itself. Once a ski shop and then a rent-to-own furniture store, it was acquired by the City of Aurora's Office of Urban Renewal and Redevelopment. They invested over two million into the building's revitalization and it is now utilized as a gallery and a flexible event space for ...

The People's Building

According to Columbia University political scientist Andreas Wimmer, three factors tend to determine the success of nation-building over the long-run: "the early development of civil-society organisations, the rise of a state capable of providing public goods evenly across a territory, and the emergence of a shared medium of communication."

Nation-building - Wikipedia

A building, or edifice, is a structure with a roof and walls standing more or less permanently in one place, such as a house or factory. Buildings come in a variety of sizes, shapes, and functions, and have been adapted throughout history for a wide number of factors, from building materials available, to weather conditions, land prices, ground conditions, specific uses, and aesthetic reasons.

Building - Wikipedia

It can be difficult to estimate how many people are going to use a space within a building so most model codes that address egress design will provide requirements for how to estimate this number. If you are working with NFPA 101, Life Safety Code , Table 7.3.1.2 provides occupant load factors for different uses found in a building.

How to Calculate Occupant Load | NFPA Xchange
