Principles of Political Economy is one of the most important economics or political economy books published. Political Economy is the term nineteenth-century writers used to refer to the study of what economists call macroeconomics, though its practitioners, such as Adam Smith, Mill, David Ricardo, and Karl Marx, were more philosophical and less empirical in their methods than modern economists.

The black swan theory or theory of black swan events is a metaphor that describes an event that comes as a surprise, has a major effect, and is often inappropriately rationalised after the fact with the benefit of hindsight. The term is based on an ancient saying that presumed black swans did not exist – a saying that became reinterpreted to teach a different lesson after the first European ...
